

Project Name: The Zero Carbon Project (TZCP) Carbon Footprint Declaration 2021

Questionnaire: Carbon Footprint Survey 2025

Level	Question	Answer
1	Have you calculated the Carbon footprint for your company	Yes
2	Introductory section	
2.1	Name of the person filling the form	Prashanth P
2.2	Email of the person filling the form	unit2qs@premind.com
2.3	Designation of the person filling the form	Management Representative
3	Carbon footprint declaration	
3.1	Base year	
	What is the base year for Carbon footprint calculation? (YYYY)	2,018
	What is the Carbon footprint (baseline) of your base year?	
	Scope 1 (Tons CO2e)	4.00
	Scope 2 (Tons CO2e)	1,025.00
	Optional- Scope 3 (Tons CO2e)	904.20
	What is the Financial Turnover of the entity/scope whose Carbon footprint (baseline) is calculated/reported in the base year? Note: Put the value as whole number/integer (e.g. 232678)	300,000,000
	Currency of Financial Turnover (Please select from dropdown)	INR
3.2	Most recently calculated/reported Carbon Footprint	
	Year for which carbon footprint has been reported (YYYY)	2,024
	Reported carbon footprint	
	Scope 1(Tons CO2e)	36.20
	Scope 2 (Tons CO2e)	904.20
	Optional- Scope 3(Tons CO2e)	904.20
	What is the financial turnover of the entity/scope whose Carbon footprint is reported?Note: Put the value as whole number/integer (e.g. 232467)	657,044,984
	Currency of Financial Turnover (Please select from dropdown and ensure that Base Year Currency is the same as Current Year Currency)	INR
	How will you describe the entity for which the Carbon footprint is reported:	Single sector business/enterprise

	Single sector business/enterprise	Yes
	Does the carbon footprint cover > 80% of the business footprint	No
4	Carbon footprint reduction target	
4.1	Carbon footprint reduction target (intensity based) Note: Schneider Electric recommends supplier to adopt minimum 50% CO2 reduction of Scope 1+Scope 2 emissions by 2025	
	Have you already adopted a carbon emission reduction Target	Yes
	Do you have the common/combined/joint reduction target for Scope1 and Scope 2	Yes
	Please mention the % Scope 1+Scope 2 CO2 reduction target adopted. E.g. 51 (without decimal, not required to put '-' sign for reduction or '% symbol'). Note: If your company has taken separate scope 1 and scope 2 emission reduction target, calculate the combine scope and put only one figure here.	56
	Target year to reach the Scope 1+Scope 2 CO2 emission reduction (YYYY)	2,025
	Do you have a long term CO2e emission reduction target?	
	Optional: What is the % Scope 3 CO2 reduction target adopted	51
	Optional: Target year to reach the Scope 3 CO2 emission reduction (YYYY)	2,025
4.2	Is your company declaring the annual scope 1 & scope 2 emission figures in public domain	No
	Provide hyperlink (e.g. company webpage/ sustainability report/ESG report/annual report/CDP climate survey etc.)	
5	Action plan for carbon footprint reduction	
5.1	Please Select the actions listed below that your company may undertake to achieve decarbonization	
	Efficiency	<input type="checkbox"/> Process automation & efficiency (reduce processes' energy intensity, such as Manufacturing, Logistics, Travel, Offices, changed processes...)
		<input checked="" type="checkbox"/> Energy Efficient Assets (e.g. LED Lighting, efficient ventilation & air conditioning, compressors, etc)
	Electrification	<input type="checkbox"/> Electrification (switch from gas, fuel, etc to electricity) of processes and assets
		<input type="checkbox"/> Fuel decarbonization (gas to biogas, fuel to biofuels, etc)

	Decarbonization	Electricity decarbonization (to renewables <input checked="" type="checkbox"/> through Power Purchase Agreements, Green Tariffs, On-site Solar, Renewable Electricity Certificates, etc)
	Carbon offsets	Purchase of Carbon offsets (compensation) <input type="checkbox"/> or funding of Carbon avoiding projects (deforestation, etc)
5.2	Any other actions/Comments	www.premind.com
6	OPTIONAL: Scope 3 emission reduction	
6.1	Optional: Have you engaged your suppliers on their Carbon footprint reduction	No
6.2	Optional: Do you monitor the Carbon footprint reduction progress of your suppliers	No
		<input type="checkbox"/> Purchased goods & services
		<input type="checkbox"/> Capital goods
		<input type="checkbox"/> Fuel & energy related activities
6.3	Optional: Please select the sources of emissions that are taken into account in scope 3 emissions	<input type="checkbox"/> Transportation & distribution
		<input type="checkbox"/> Waste generated in operations
		<input type="checkbox"/> Business travel
		<input type="checkbox"/> Employee commuting
		<input type="checkbox"/> Leased assets
7	Product Carbon Footprint	
7.1	Are you calculating Product Carbon Footprint for the goods/services that your company is supplying to Schneider Electric	Yes
7.2	Can you share the Product Carbon Footprint data with Schneider Electric	Yes
7.3	What percentage of PCF can you share with Schneider Electric by 2026?	More than 50%
7.5	Note: Data required for Product Carbon Footprint calculation include but are not limited to annual factory production data, raw material details, scrap, waste disposed, packaging and transport etc...
